The reflection...

Your Creativity

your imagination

People want homes to be unique places. Places where everything from the most practical aspects to the smallest details exist in perfect harmony. Exquisite and everyday. We feel proud of our homes, because they show who we are, how we feel, what we desire...

This is also true of the new glass mosaics from ezarri. Wall coverings and decorations that reflect your creativity and imagination.

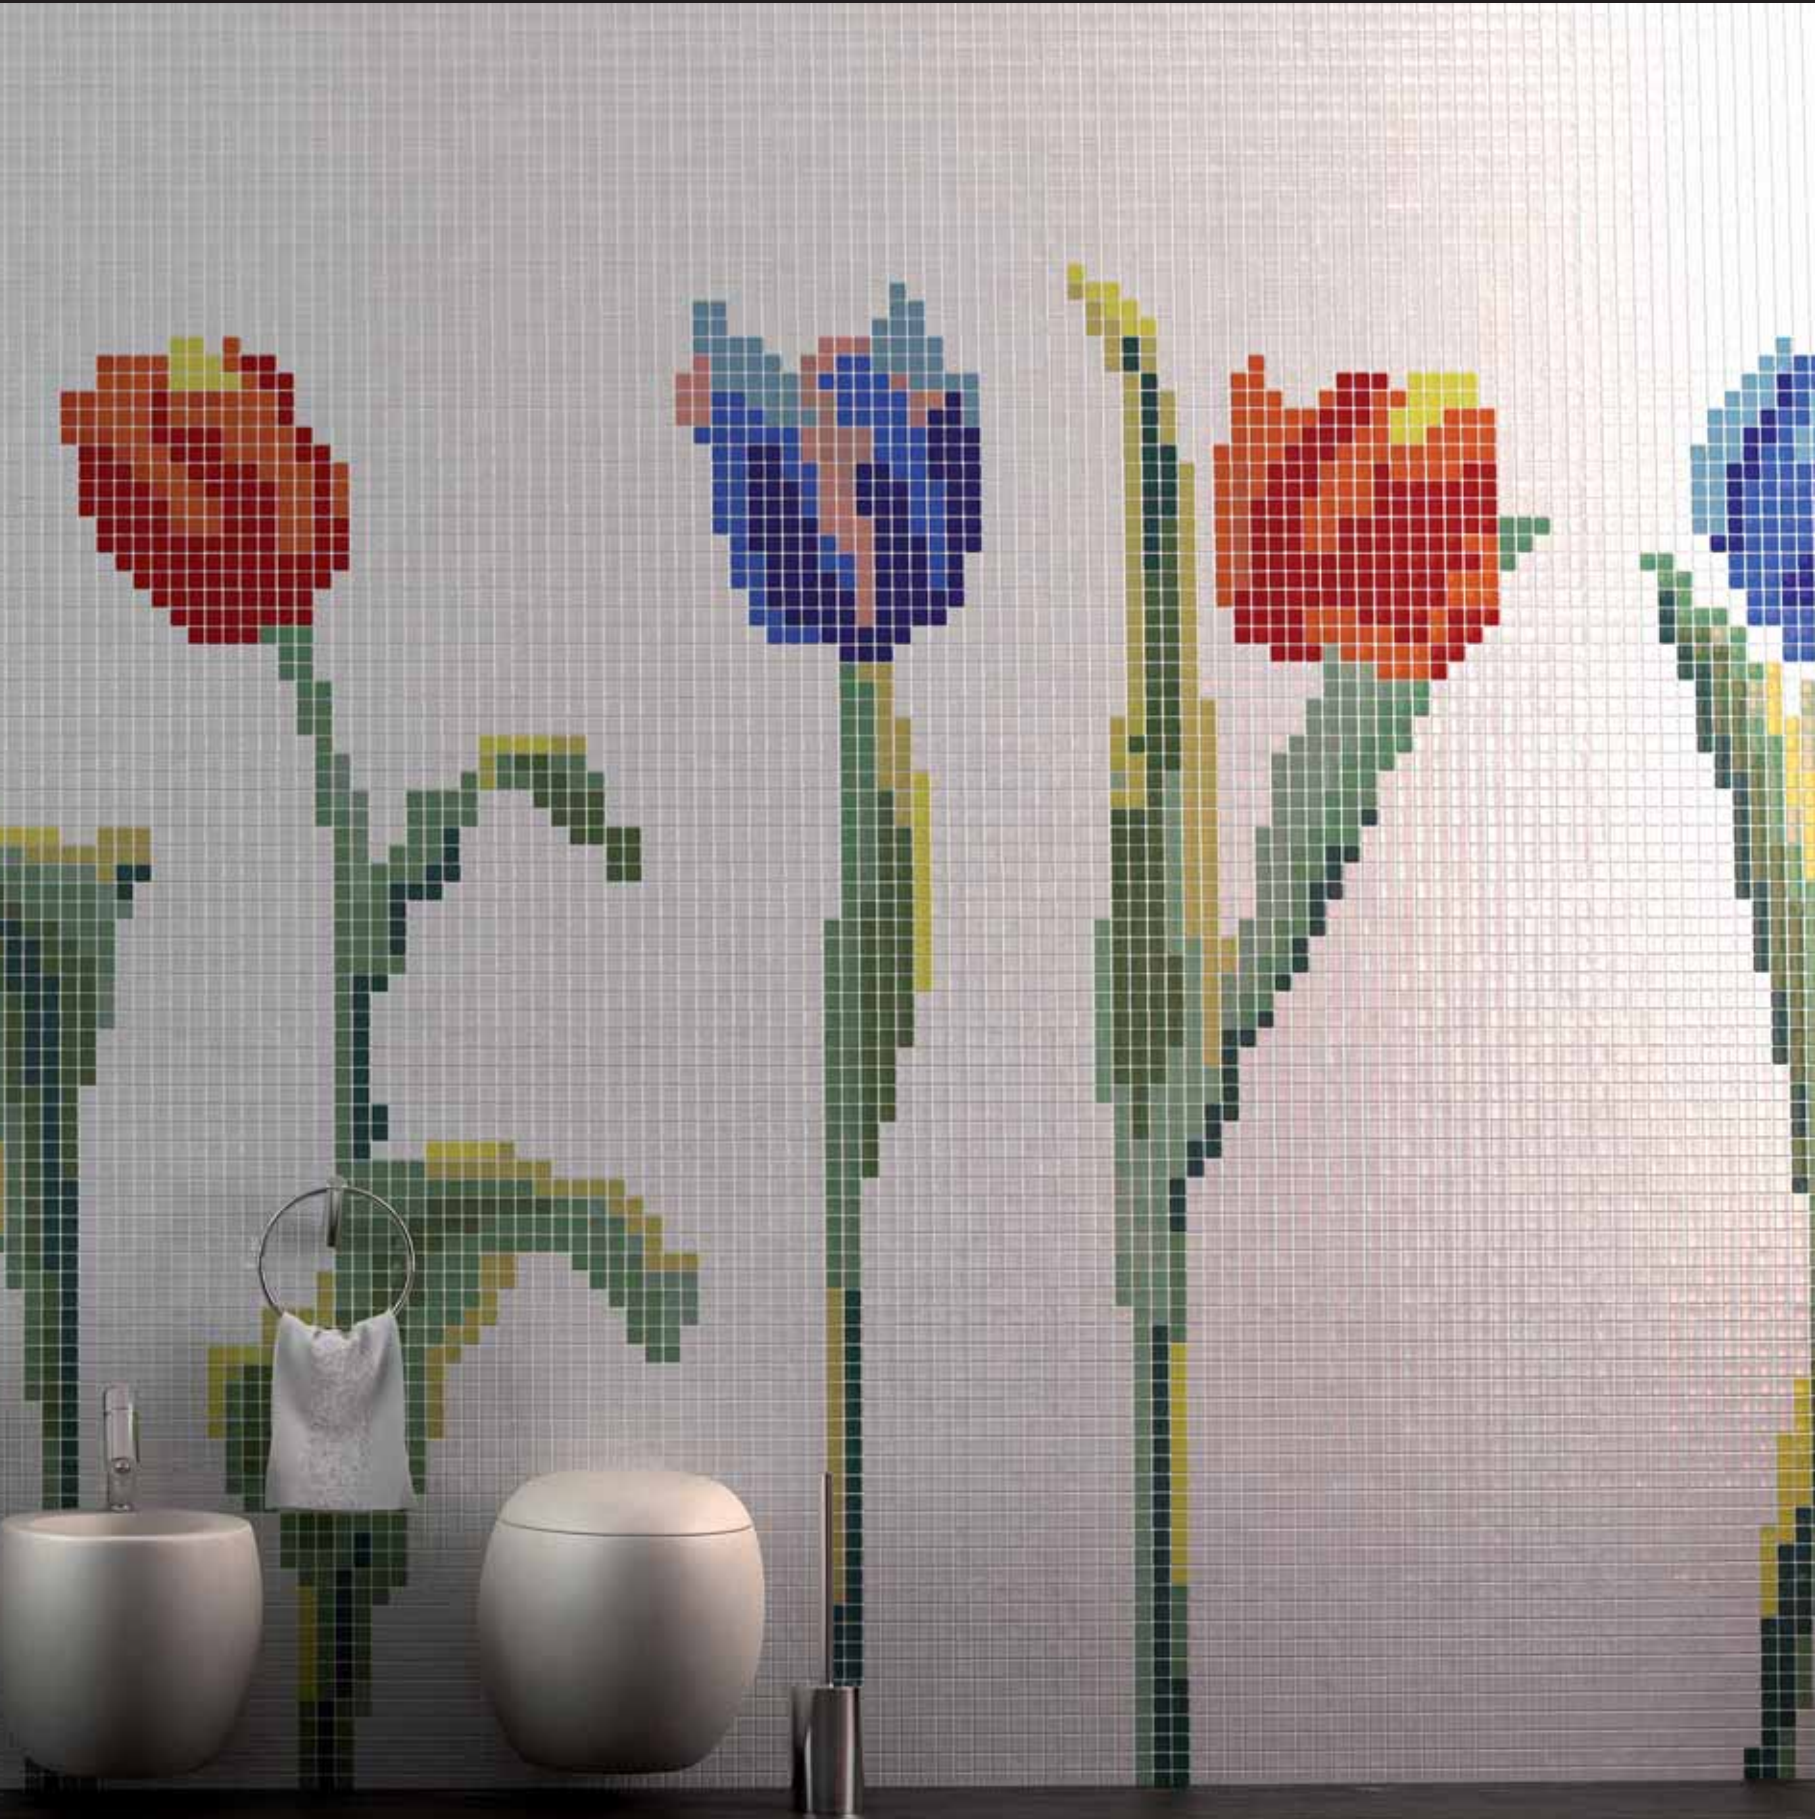

Your imagination

1.

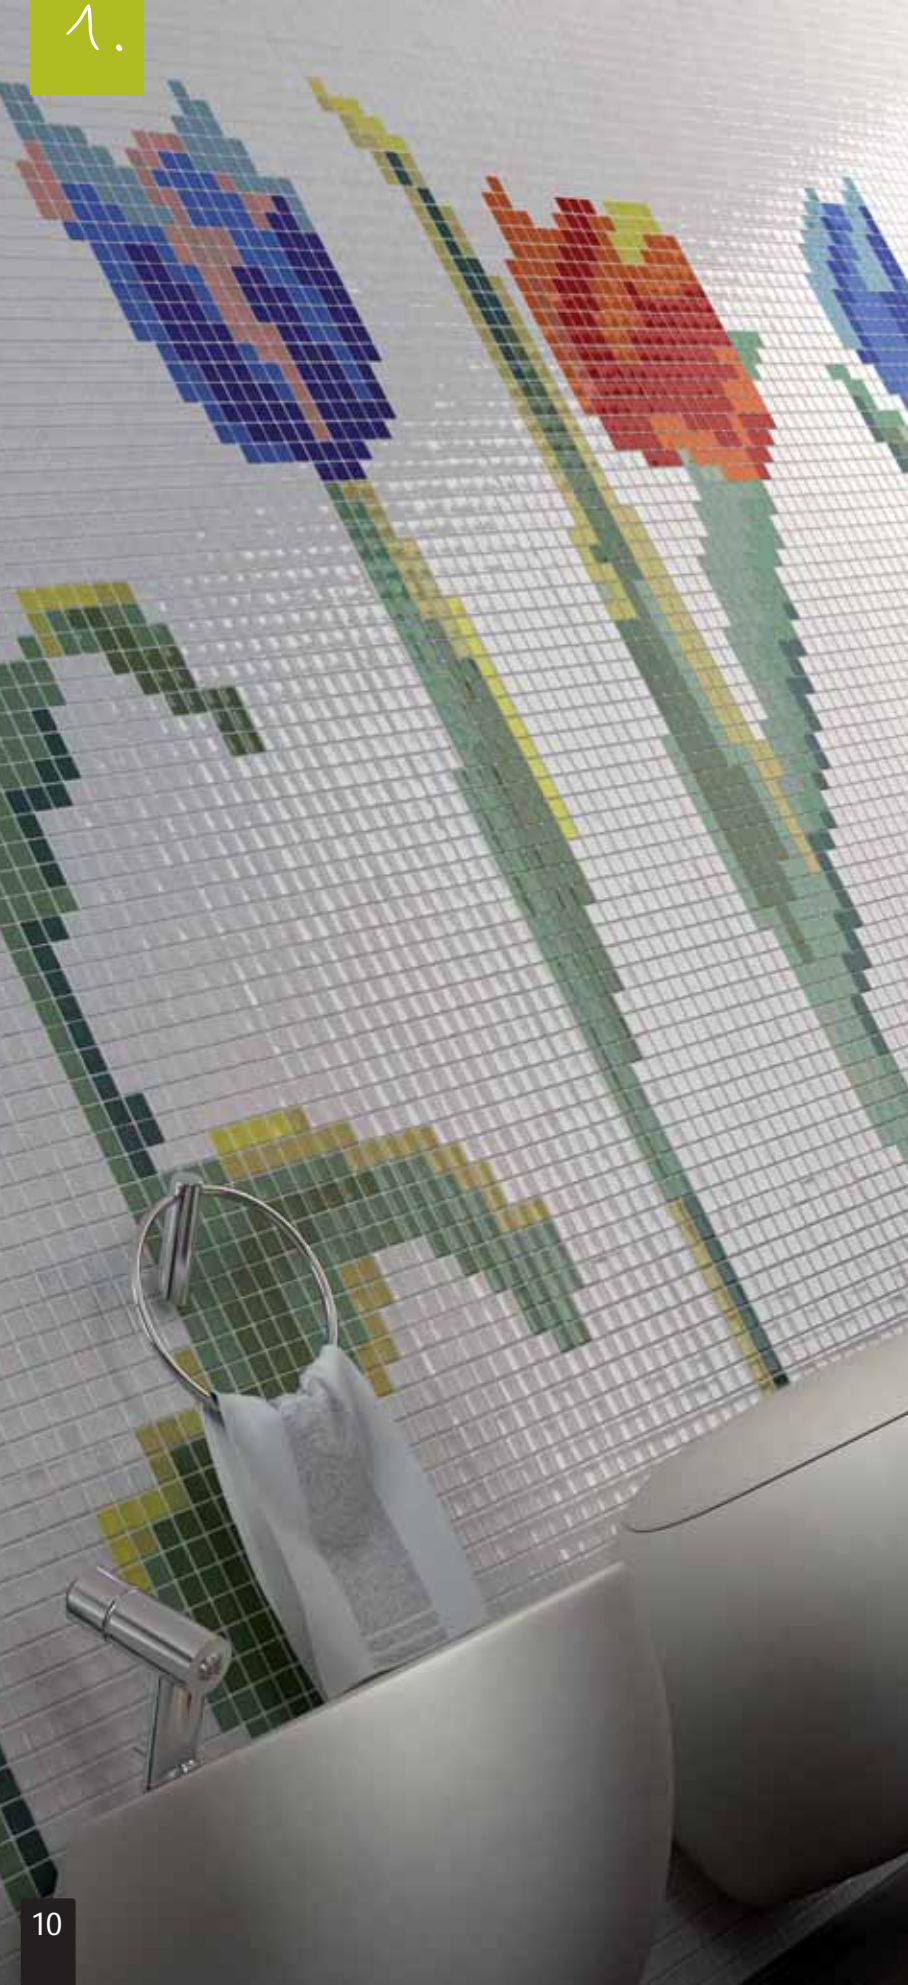

Left wall shower zone: RUBI (Metal Collection)
Front wall: Personalised 2.5x2.5 mosaic on a background of white 2545-a (Plain Collection)

Your imagination

1.

Armchair and bath zone: PERLA (Iris Collection), RUBI (Metal Collection) and CUARZO (Iris Collection))

Elegant décors, exclusive designs, ever unique. Finishes and tones that transmit perfection, harmony and sophistication in classic and modern rooms alike, thanks to the extensive range of colours and finishes.

Your personality

Passionate, sophisticated, classic, avant-guard, sober, glamorous...

However you are, ezarri offers you infinite aesthetic opportunities to

satisfy your tastes, needs, dreams, experiences... in short, versatile

solutions that help you create the atmosphere you want in the way you

want to.

Your personality

2.

Main wall: Screen printed image on a white background 2545-a (plain collection)
Bar surface: SCORPIO (Space Collection)

Glass mosaics that alternates shiny and matt lines. Elegant ochre, golden, ivory and beige tones. Or sophisticated lava, anthracite and granite tones. Silky finishes with varying degrees of shine.

Your personality

2.

Glass mosaic colours and textures create warm ambiances with the most contemporary decorative lines.

Highly resistant to water and freezing temperatures, they are ideal for use in all kinds of spaces.

Not only is glass mosaic naturally beautiful and durable, it is easy to clean, and 100% of the glass we use as raw material in our production process is recycled.

Your interior

ezarri enables new possibilities and compositions in interior design. A new aesthetic code that offers numerous uses of a classic, attractive and contemporary material, which will surprise many with never-before-seen décors.

Your interior

3.

Left Wall and Fireplace zone: SCORPIO (Space Collection)
Centre Wall: Pattern combining AURUM (Metal Collection) and 2545-a (Plain Collection).
Dining room wall zone: Horizontal lines in two tones, AURUM (Metal Collection) and SCORPIO (Space Collection)

Why now bring this beautiful material out of the bathroom and kitchen?

Why not use decorative glass mosaic panels on the main wall of the living room?

Your interior

3.

Houses in ancient Pompeii featured mosaics to decorate important rooms where visitors were received.

Nowadays, new compositions are born of colour combinations, techniques and different materials. Designs are transferred with absolute precision using digital printing, and the surface is totally smooth and flat, without disruptions.

A new decorative option is born.

Your exterior

Tempting, mysterious, suggestive colours. Fresh natural options.

Sometimes the light comes from the purest of whites or blues, on

which daring colours are sometimes superimposed.

Amazing, original ambiances, which provide well-being,

pleasure and relaxation, clearly reflecting exterior beauty.

Your exterior

4.

Trend-setting mosaics. Pieces that give a fresh, natural image thanks to their brilliant colours, ranging from elegant pearlised, iridescent colours in the Iris and Metal collections to elite finishes in the Space and Titanium ranges.

Your exteriors

4.

ezarri's collections stand out for their high quality and versatility. Ideal for all types of spaces, thanks to their technical and innovative characteristics. They are extremely durable, need no maintenance, are easy to clean and have an non-slip surface that makes them very safe, they are water resistant, preventing the development of germs and fungi, and unlike other ceramic surfaces they adapt to curved surfaces and small spaces.

Your expression

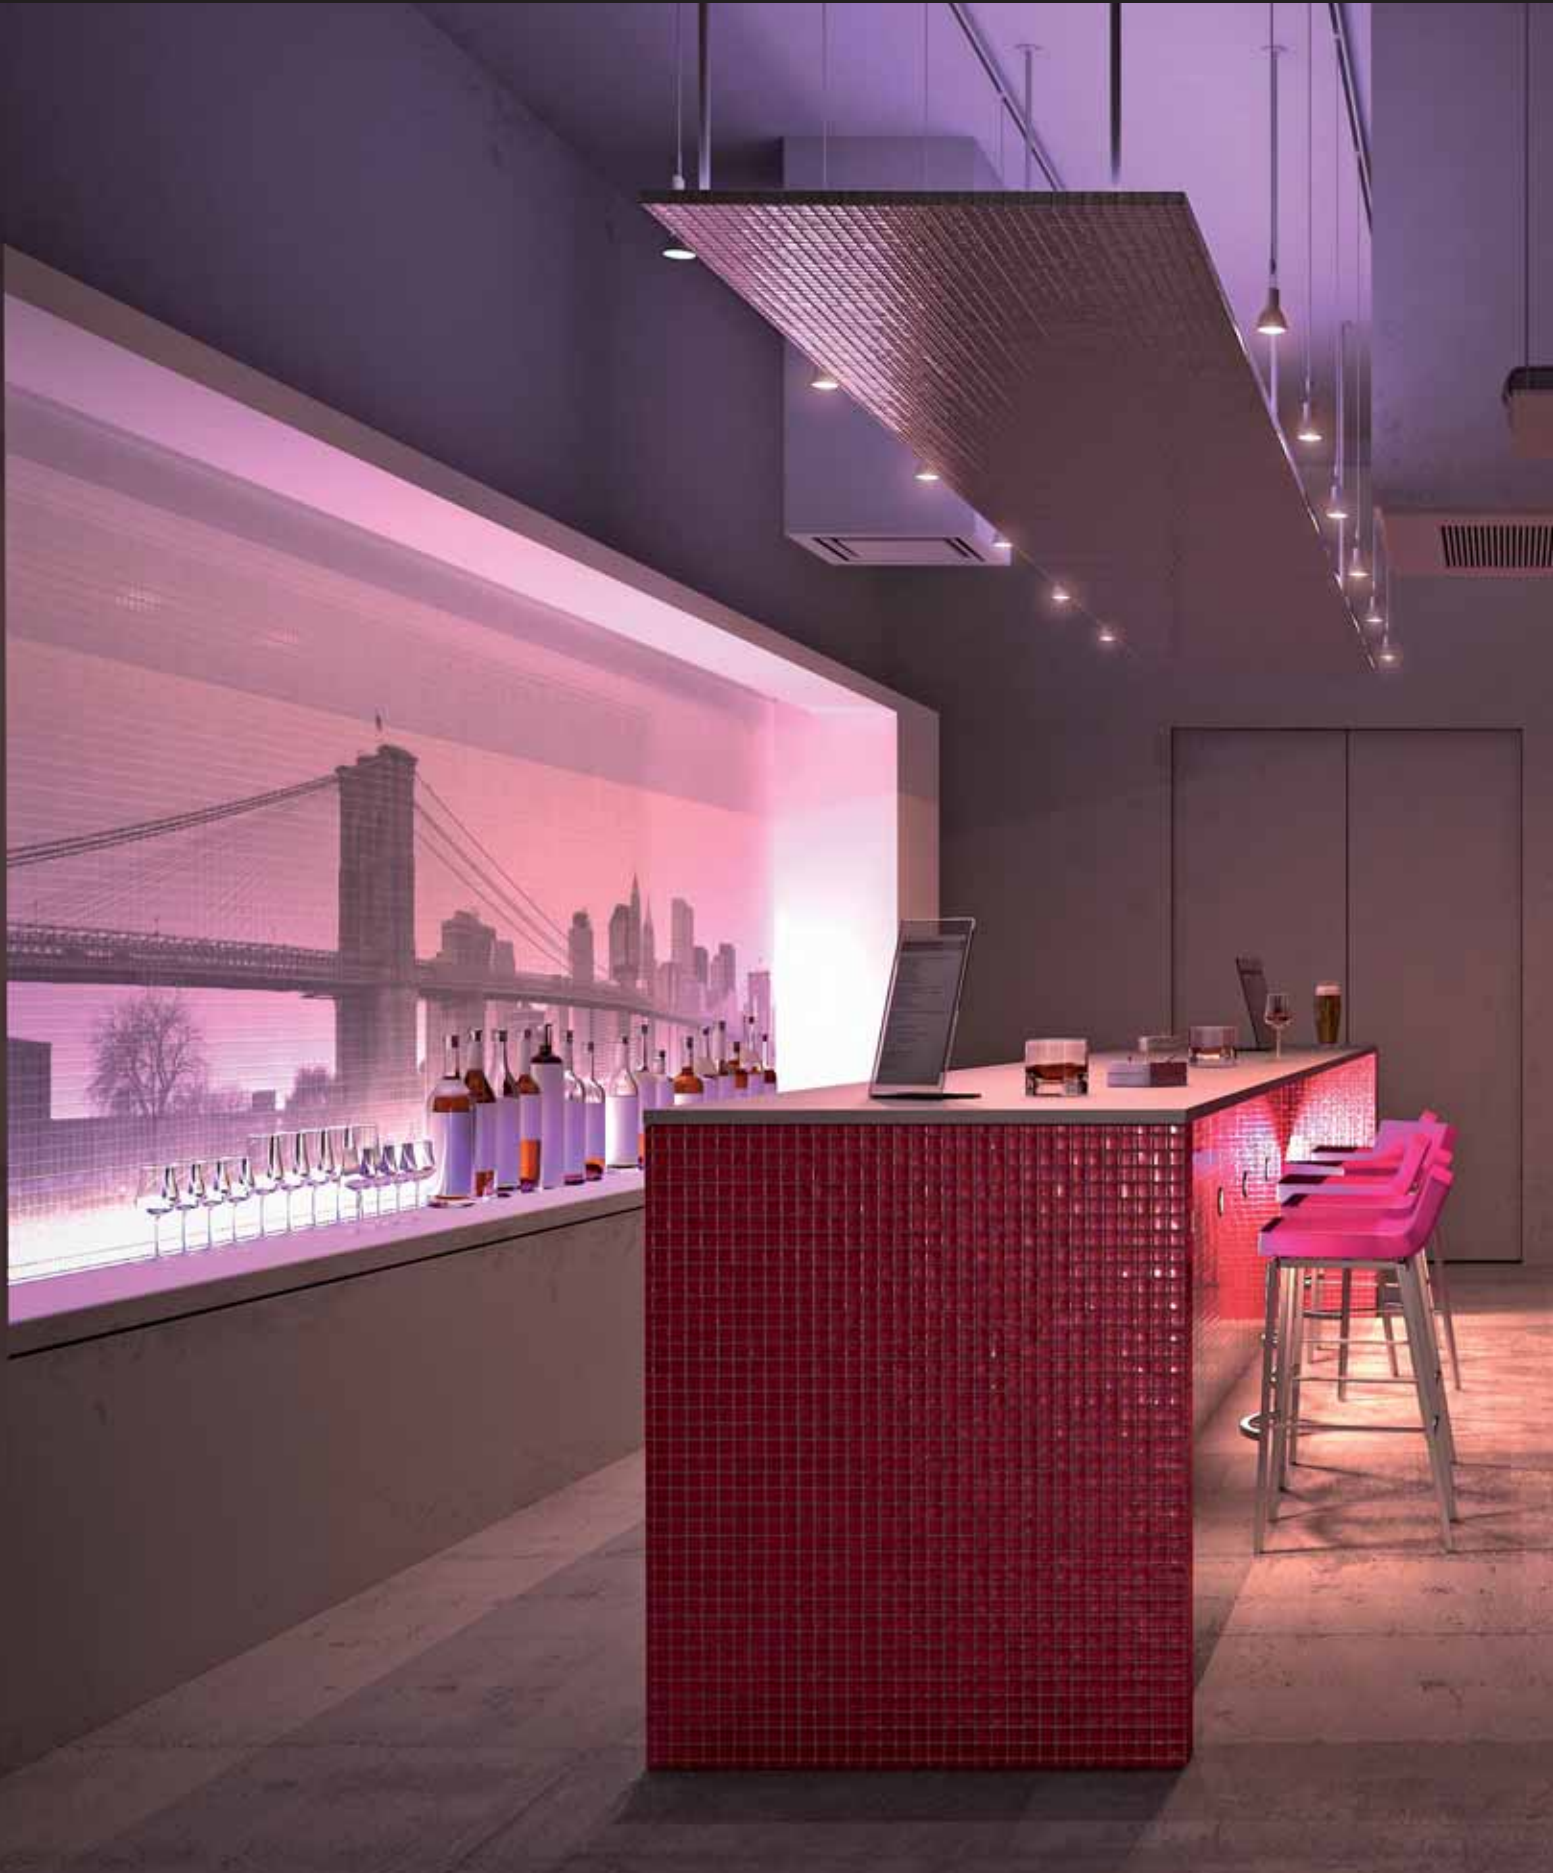

Creating contrasts and fusion of styles. Touches of warmth in the most sophisticated ambiances. Settings where new depths are achieved in space. Shiny finishes or polished matte, hugely versatile options, because glass mosaic can be used for both walls and floors.

So you always find the reflection of your personality in your expression.
